About

Full-Stack Software Engineer with **7+ years** of experience building web and mobile products. Led teams from 2 to 40 people, including 4+ years in technical leadership roles, and worked as both a sole and a member of Agile/Scrum teams. Strong track record in end-to-end product development, from requirements gathering and system design to automated releases.

Beyond engineering, brings a **strong product mindset** supported by formal design training and 5+ years of hands-on marketing experience in analytics, UX/UI, onboarding, user acquisition, and growth initiatives. Collaborates closely with product, design, and marketing teams to translate business goals into technical execution.

Regularly experiments with AI tools to accelerate development. Over the last year in the latest project, up to 70% of the code was AI-generated based on my technical specifications, enabling delivery of 6 core product features that drove a **64% increase in sales**.

Skills

Front-end: React · TypeScript · JavaScript · Angular · Next · Redux · Prime NG · Material UI · Atlassian · Angular material · HTML5 · CSS

Back-end: Node.js · Nest.js · Express.js · Redis · PostgreSQL · Hapi.js · PostgREST.js · MongoDB · Microservices · GraphQL

Mobile: React Native · Expo · EAS · React Navigation · React Query · Reanimated

DevOps: Docker · Git · Heroku · Netlify · NX Monorepo · AWS S3 · AWS EC2 · AWS IAM · AWS RDS · AWS Lambda · API Gateway · AWS VPC

AI: Cursor · Claude Code · Copilot · OpenAI API

Other: Google Ads · GTM · Google Analytics · Auth0 · Clerk · SEO · WordPress · Jira · Sentry · Figma

Experience

Livee — [www.livee.com](#)

Paris, France

Full-Stack Engineer

03/2022 - Present

Technologies: React, React Native, Material UI, Hapi.js, Nest.js, PostgREST.js, PostgreSQL, Auth0, Heroku, Netlify.

- **Developed 3 React-based admin dashboards** covering full event management workflows (events, users, registrations, analytics).
- Migrated 200+ event management screens from Atlassian UI to MUI to standardize UI system, reduced development time by ~30%.
- Built CSV/XLSX import-export pipelines for event data, reducing manual data entry workload by ~50%.
- Designed and implemented a registration module for event hosts, onboarding ~10% more organizers who required attendee tracking.
- Built a custom event page editor → 22% of users adopted it after release, increasing platform self-service usage.
- Built an AWS S3-based event resource library for documents and media → centralized asset management and reduced operational overhead.
- Replaced 2 core Hapi.js API services with a modernized architecture and **introduced 2 new production services** → improved maintainability.

BYTABO Digital Crew — [www.airportliner.com](#)

Bamberg, Bavaria, Germany

Full-Stack Developer

03/2021 - 03/2022

Time-bound platform migration project, followed by a transition to a new project through a referral from the CEO.

Technologies: React, Angular, RxJs, Express.js, PostgreSQL, MUI, Angular Material Design, Heroku, Playwright.

- **Re-architected and rebuilt the taxi booking platform** UI using React, introducing a consistent Material Design 2 design system.
- Built a taxi order management platform for operators using Angular, improving **order processing speed by 3x**.
- Integrated address search and autocomplete using Google Places API, expanding supported customer locations by 300%.
- Designed and implemented a promo and discount system for taxi customers, enabling increasing marketing **customer interactions by 2x**.
- Covered the 6 most complex business flows with E2E tests, validating full user-to-user scenarios.

Be | Shaping the Future Ukraine — [www.ua.be-tse.com](#)

Kyiv, Ukraine

Frontend Developer

04/2019 - 02/2021

Technologies: JavaScript, TypeScript, Angular, Pug, SCSS, PrimeNG.

Led development responsibility for a fintech banking app with complex multi-form screens and heavy business logic, requiring product-level understanding of banking workflows. Transitioned to a full Node.js stack role to deepen backend expertise and grow as a full-stack developer.

Education

Taras Shevchenko National University → Institute of Mathematics, NAS of Ukraine

Kyiv, Ukraine

M.Sc. in Mathematics, Postgraduate Studies | 10+ years of advanced mathematics education
